The map is based upon Williams' map of Goshen County, 1850, but has incorporated in it numerous details from maps of later dates, including the U.S. Geological Survey's Contour map of 1910, the New York State map of 1910, and the U.S. Geological Survey's Contour map of 1910. It is the only map of the region showing the route of the Wolfboro Road, and it is the only map to show the original layout of the road and the locations of the sites mentioned in the text.
